

CAPABILITY STATEMENT

Newark, New Jersey | inquiries@andersonenterprisegroup.com

Core Competencies

Anderson Defense - strategic security systems, advanced hardware and next-generation defense technologies.

Anderson Aerospace - flight systems, space exploration platforms and pioneering aerospace research.

Anderson Innovations - next-generation R&D, software engineering and sustainability / CleanTech integration.

Anderson Foundation - philanthropy, community outreach and lasting social impact programs.

Differentiators

Vertically integrated: mathematics, firmware, software and prototype hardware under one roof.

Autonomy designed for denied, degraded and disconnected operation.

Non-dilutive commercialization model that de-risks long-lead hardware programs.

Small, senior engineering teams with direct program accountability.
